PROFESSIONAL SUMMARY

- A motivated B.Tech CSE (Data Science) student with strong skills in Python, Java, C++, HTML, and MySQL. Experienced in data analysis and visualization using Power BI with a problem-solving mindset and quick learning ability. Seeking internship or entry-level opportunities to apply technical skills and contribute to data-driven solutions.

CAREER OBJECTIVE

- To secure a challenging internship in the field of Data Science or Software Development where I can apply my skills in Python, MySQL, Power BI, and data analysis to contribute meaningfully while continuously growing as a tech professional.
- A genuine passion for technology and a desire to stay updated with the latest trends and advancements in the field of software engineering.

SKILLS

- **Technical:** Python, Java, C, C++, HTML, Artificial Intelligence, Machine Learning, Data Analytics, BI
- **Database:** MySQL, PostgreSQL
- **Tools:** Google Collab, Power BI, Microsoft Excel, PowerPoint, Word

INTERNSHIP LEARNING

- Data Analytics with Python and Power BI Virtual Internship - EduSkills Academy : Jan 2026 - Mar 2026
- Python Full Stack Developer Virtual Internship - EduSkills Academy : Oct 2025 - Dec 2025
- Generative AI Virtual Internship, AICTE - EduSkills, Curriculum provided by Google Cloud : Apr 2025 - Jun 2025
- Creators of Metaverse Program, an initiative by AICTE, supported by Meta Platforms Inc.: Sep 2023 - Dec 2023
- Application Development using Java, IT NetworkZ Infosystems Pvt. Ltd., Nagpur : Jun 2023

PROJECTS

NEXA-VA : A Hybrid AI Desktop Voice Assistant

2026 - Present

Tech Stack: Python, NLP (NLTK, spaCy), Cloud-based Speech Recognition, ML Models

- Designing a context-aware AI desktop voice assistant with multi-turn conversational capability and cloud-based NLP for intent recognition.
- Implementing Windows desktop automation through natural voice commands with security validation for critical system actions.
- Building a modular, cloud-oriented architecture with layered components for speech processing, context management, and task coordination.

Sales Manager Snapshot - Power BI Dashboard

Feb 2026

Tech Stack: Power BI, CSV (Data Source)

- Designed and developed an interactive Sales Analytics Dashboard in Power BI analyzing over 2.3M in total sales and 286K in profit across 10K+ orders.
- Built dynamic visualizations including monthly sales & profit trends, customer-wise profit analysis, product sub-category breakdown, and top-performing product reports.
- Implemented year-wise filters (2014-2017) and segment-level insights (Consumer, Corporate, Home Office) enabling data-driven decision-making for sales managers.

Tech Stack: Python [Flask], HTML, CSS, JAVASCRIPT, Bootstrap, Themesberg Template

- Developed a web-based AI proctoring system to monitor online exams and detect cheating behaviors using artificial intelligence and biometric technologies.
- Implemented real-time surveillance features ensuring examination integrity for educational institutions conducting remote assessments.
- Built full-stack using Python Flask for backend and HTML/CSS/JavaScript/Bootstrap for a responsive frontend interface.

QUALIFICATIONS

- B.Tech. in Computer Science and Engineering - Data Science | Shri Ramdeobaba College of Engineering and Management, Nagpur | 8.42 CGPA | 2024 - Present
- Diploma in Computer Technology | Government Polytechnic, Bramhapuri | 89.83% | 2021-24
- Royal Gondwana Public School, Shankarpur Khapri, Nagpur | 10th (72%) | 2020-21
